create your space

20six Ltd are market leaders in all aspects of office design, fit out, furniture and maintenance.

With over two decades of hands-on experience, 20six Ltd help you to create the office space that you require.

20six

About

20six are Brighton based interior specialists offering innovative design, quality fit-out and contemporary office and leisure furniture.

Our collective experience in all areas of commercial interiors means we can offer either a full turnkey service, or a "pic and mix" selection working alongside your own designers, contractors or suppliers.

Our client portfolio ranges from small independent businesses with 3 members of staff to major corporate companies with 3000+ personnel. There is no company or project too large or too small.

“Recognizing the need is the primary condition for design.”
Charles Eamesi

Furniture

20six have access to a vast portfolio of products across both commercial and leisure sectors and can therefore offer professional, unbiased advice to our clients. Corporate image, budget, style and functionality are all factors to consider when selecting office and leisure furniture.

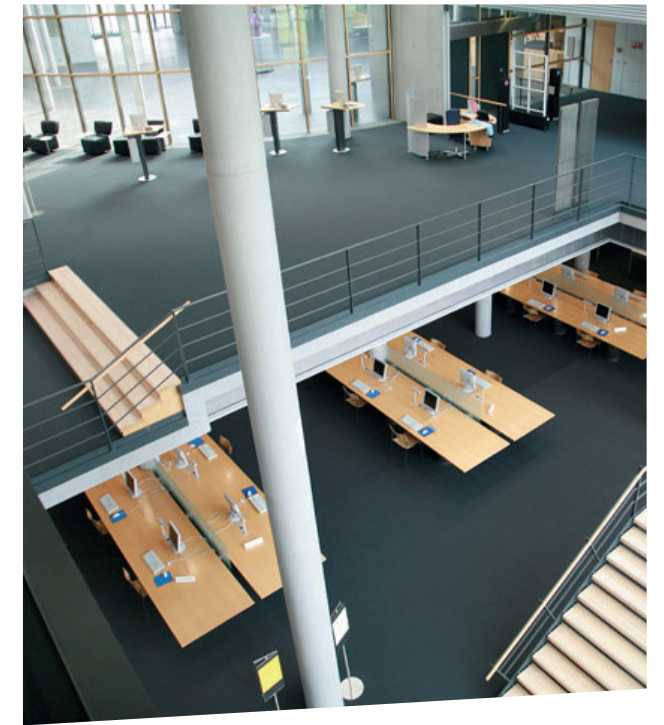

With our expertise and your vision, we can work together to select the best products that suit your needs and your budget.

Fit out

Refurbishing your existing space or moving to new premises can be extremely stressful and time consuming for any business.

At 20six we offer all aspects of commercial interior fit out and refurbishment as well as executing small building works, office delapidations and project management.

“Good design is obvious. Great design is transparent.”

Joe Sparano

“Styles come and go. Good design is a language, not a style.”

Massimo Vignelli

Design

We understand how important it is for you to get the most you possibly can out of your space and that sometimes, no matter how well you mentally envisage it, best laid plans go awry and things just won't fit. So, the first essential step to a great working environment is achieving a great layout...

Our team of space planners use top of the range CAD software to model both the interior layout of your workplace and plan your furniture, storage and circulation requirements.

“Design is not just what it looks like and feels like. Design is how it works.”

Steve Jobs

Project Management:

We offer you the option of fully managing your project. From an initial chat to ascertain your needs, through the planning, sourcing of materials, equipment, suppliers and if required contractors, 20six provides you with a complete project management package.

We ensure the works go seamlessly, leaving you the time to concentrate on your business.

Maintenance:

All buildings require regular maintenance to ensure the longevity of their use, as well as to maintain the safety of all of those who use the building. This may be a planned maintenance by way of a decoration programme, a door access schedule or a reactionary maintenance requirement which may include a lock which isn't working, or a leaking pipe.

Whatever your office building requires, 20six offer you a bespoke office building maintenance service that can assist to ensure your building works at maximum efficiency.

“If you think good design is expensive, you should look at the cost of bad design.”

Ralf Speth

20six Ltd have the knowledge and experience to help you achieve maximum productivity from your work space; from office furniture, through to refurbishment, maintenance or a total redesign, we can help you get things right from the outset.
